

E-CRIME

INTRODUCTION to E-CRIME and OBJECTIVE FOR ROME WORKSHOP

Monica, Lagazio, Trilateral Research & Consulting

FP7

The Economic Impacts of Cyber Crime January 2015

Section's focus

- E-CRIME overview
- Today and tomorrow workshop
 - Overall objective and structure

Project details

- April 2014 – March 2017; 36 months
- €3.74 million (requested funding € 3million)
- 10 Partners
- 8 Countries

Key objectives of E-CRIME

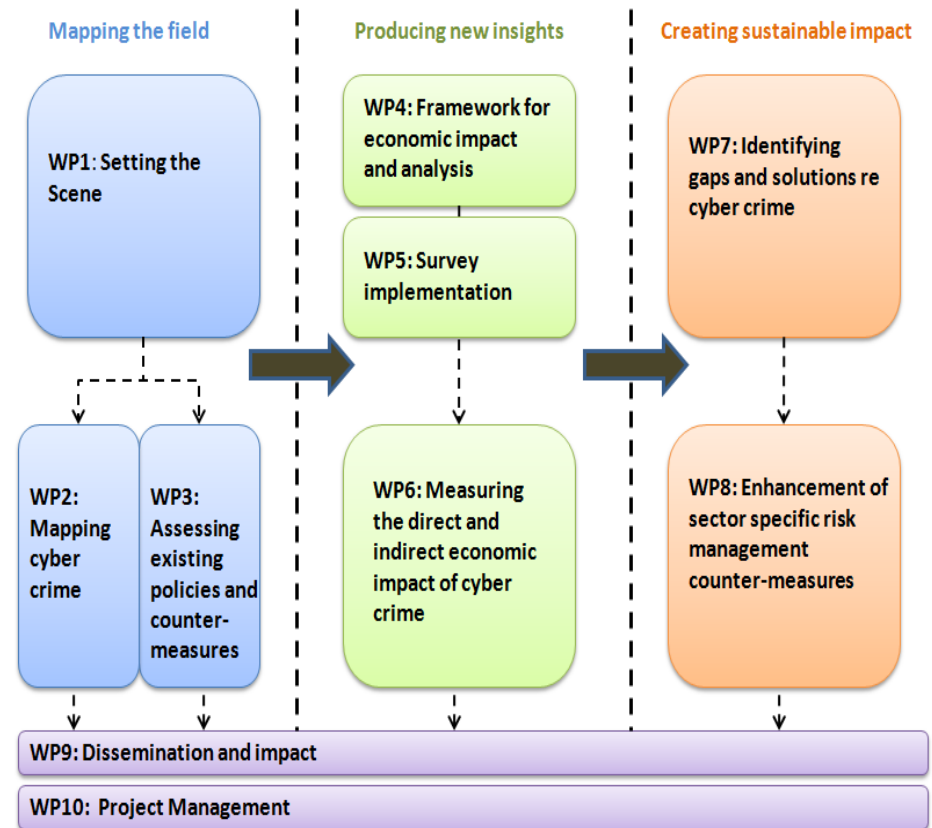

The project primary key objectives

1. **Measure and analyse the economic impact of cyber crime on non-ICT sectors and analyse the criminal structures and economies behind such crimes**
2. **Develop concrete measures and methods to deter possible criminals and to drastically limit the attractiveness of such crimes**

Additional objectives

- Create a taxonomy and an inventory on e-crime
- Present effective measures for the management of risks and help businesses to provide crime-proofed applications
- Increase the trust and confidence of EU citizens in using cyber applications
- Increase the awareness of policy-makers, and non-ICT sectors

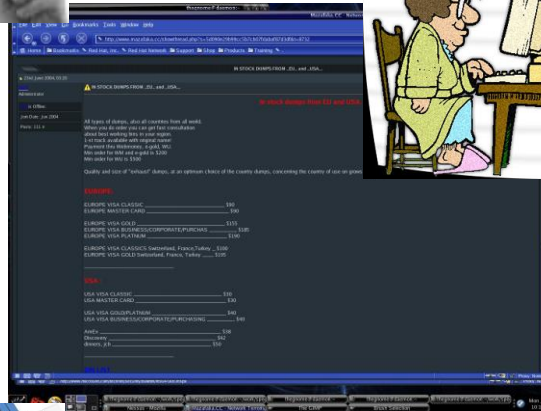

Project Structure

The work undertaken by E-CRIME aims at having a positive and durable impact on

Increasing awareness of policy makers

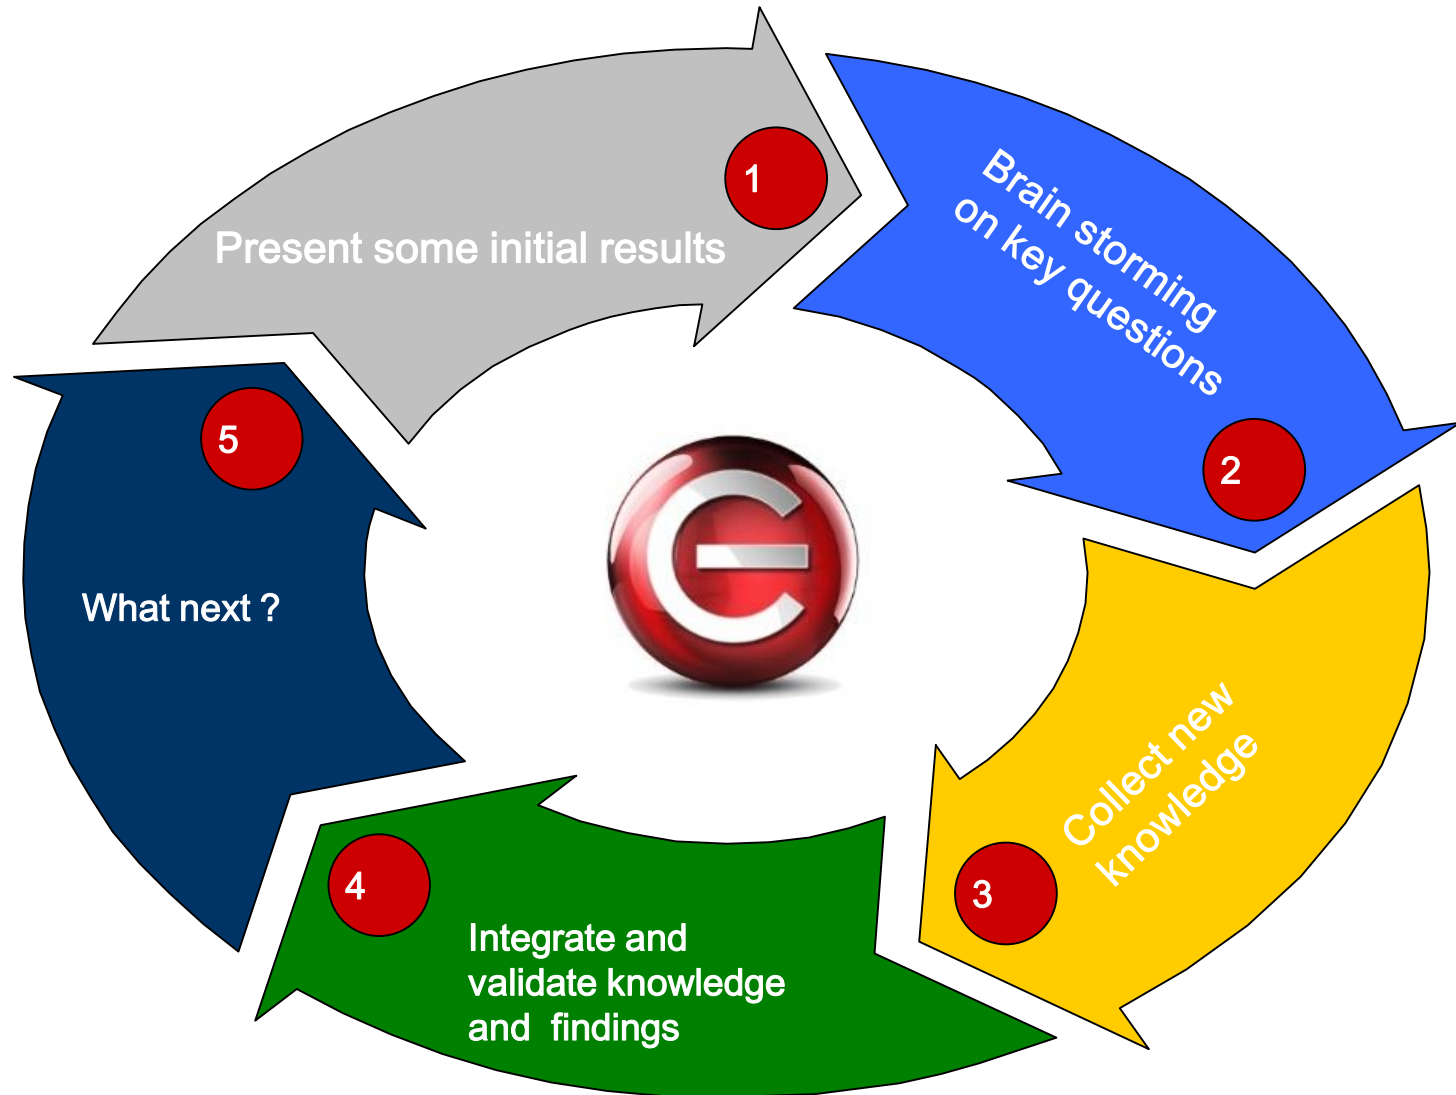

Increasing the trust and confidence of citizens in using cyber applications

Helping business to provide crime-proofed applications

Contribution to the impact of the European Union's security work programme

Key objectives of this Workshop
